Capsicum Slim Therapy

Body treatment that activates the lipolysis process and combats the total and topical body fat.

Professional cosmetic treatment that combats total and topical body fat and combines enzymatic action and mild hyperemia with a cocktail of lipolytic active ingredients. This treatment is based on the potent lipolytic action of Hyaluronidase enzyme, caffeine and cocktail of active ingredients in combination with the cause of hyperemia in the skin. It is also enhanced with the ingredient Iodotrat (iodine free) for the stimulation of the cellular metabolism, while promoting the decongestion of body fluid retention which forms cellulite.

Main action

Lipolysis, anti-cellulite.

Secondary action

Smoothing of the epidermis.

Body concerns

Total & topical fat, cellulite.

Contraindications

In circulatory problems, phlebitis, spider veins and varicose veins, the application of Capsicum Slim Serum and the use of a thermal blanket are contraindicated.

Key ingredients

Hyaluronidase, Caffeine, Iodotrat, Sveltam, Escin, Centella Extract, Methyl Nicotinate, Capsico-Tabasco Pepper.

Suggested applications: Minimum 10 sessions.

Session duration: 35 minutes

Repeatability: 2 times a week

Maintenance: 2 times a month

Slimming Capsicum Slim Therapy

Step 1: Detoxifying Peeling

At this stage we combine the action of removing dead skin cells with a strong keratolytic and detoxifying action.

Detoxifying Peeling Gel (12ml)

Apply 12ml Detoxifying Peeling Gel on the area to be treated and massage gently until it is absorbed. Do not rinse.

(Duration: 5 minutes)

Step 2: Anticellulite System

This stage aims to improve the appearance of "orange peel" and the uniformity of the skin of the body, as well as to strengthen the walls of the skin's capillaries.

Anticellulite System (1/2 vial)

Remove the white protective cap. Press the piston down to mix the powder contained in the lid with the solution of the vial and shake well until it is completely dissolved. Use half the amount contained in the Anticellulite System vial, apply it on dry, clean skin and massage gently until it is absorbed.

(Duration: 5 minutes)

Step 3: Capsicum Slim

This stage aims to stimulate the microcirculation in the skin and adipose tissue caused by the mild hyperaemia in the skin (Capsico-Tabasco Pepper and Methyl Nicotinate) in synergy with the lipolytic action of artichoke extract.

Capsicum Slim Serum (10ml)

Apply 10ml Capsicum Slim Serum on dry, clean skin and massage gently until it is adsorbed.

(Duration: 14 minutes)

Step 4: Anticellulite System

At this stage, the Anticellulite System is reapplied to enhance its action.

Anticellulite System (1/2 vial)

Apply the remaining amount contained in the Anticellulite System vial on the skin and massage until it is absorbed.

(Duration: 5 minutes)

Step 5: AHA Liposlim

At this stage, the lipolysis process is enhanced, and the uniformity and elasticity of the body's skin is improved.

AHA Liposlim Cream (10ml)

Apply 10ml AHA Liposlim Cream with gentle massage until it is absorbed.

(Duration: 3 minutes)

Step 6: Home Daily Regimen

- **Caffeine Artichoke Serum**
- **Lipout Shape Cream**

Strongly recommend tactical use of home regimen products after and in between treatments, until all the quantity contained is used.

Slimming Capsicum Slim Therapy

	Step	Product	Quantity/ application	Duration
1	Detoxifying Peeling	Detoxifying Peeling Gel	12ml	5 minutes
