Bust Modelling Firming Therapy

Body treatment against skin's flaccidity while enhancing the skin's elasticity in the sensitive bust area.

Professional cosmetic treatment that enhances the elasticity of the skin in the bust area. This treatment is based on the combination of action of soy proteins (Bio-Bustyl) with cocktails of firming and regenerating ingredients that penetrate deeper and faster into the skin due to hyperemia caused by the application of the Modeling Thermo Mask. This treatment can also be applied in the arm area based on the skin condition.

Main action

Improve elasticity, firming, regenerating, stretch marks improvement.

Secondary action

Rejuvenating, hydrating.

Body concerns

Reduced skin elasticity in the bust area, stretch marks of the skin during weight loss or gain, after pregnancy, growth.

Contraindications

Contraindicated during pregnancy, lactation, and any health issues related to the bust area.

Key ingredients

Suggested applications: 6-12 sessions, based on the skin condition.

Session duration: 55 minutes

Repeatability: 2 times a week

Maintenance: 1-2 times a month

Firming Bust Modelling Firming Therapy

Step 1: Detoxifying Peeling

At this stage we combine the action of removing dead skin cells with a strong keratolytic and detoxifying action.

Detoxifying Peeling Gel (12ml)

Apply 5ml Detoxifying Peeling Gel on the area to be treated and massage gently until it is absorbed. Do not rinse. (Avoid the nipple area)

(Duration: 2 minutes)

Step 2: Modelling Firming System

At this stage we aim to enhance skin regeneration, in synergy with a cocktail of firming, regenerating ingredients and a self-heating closed mask.

2a. Stretch Firm Cream (5ml+5ml)

Apply 5ml Stretch Firm Cream with circular upward movements from the outside of the breast to the inside until it is absorbed. Apply an additional 5ml Stretch Firm Cream in a thick layer, preparing the area for the application of the Modeling Thermo Mask. *(Duration: 4 minutes)*

2b. Thermo Modelling (60g)

Apply 2 wet with lukewarm water gauzes and place them on the bust area. Mix 60g Modelling Thermo Mask with 17ml water until a uniform paste is formed. Apply the paste in a thick layer on top of the gauzes avoiding the nipple area. In the next 15 to 20 minutes with the release of heat (exothermic reaction) the paste solidifies and then is removed as a mold. If there is residue of Stretch Firm Cream, massage it until it is absorbed. *(Duration: 20 minutes)*

(Total duration: 24 minutes)

Step 3: Bust Firming

At this stage we aim to tone and enhance the skin's cohesion to the bust area with the synergy of hyaluronic acid and a cocktail of firming ingredients (Bio-Bustyl, Phytodermina Lifting, Liftessence).

Bust Firming Gel (5ml)

Apply 5ml Bust Firming Gel and massage gently until it is absorbed.

(Duration: 4 minutes)

Step 4: Hydra Firming

At this stage we aim to enhance the elasticity of the skin and to hydrate it by using cryotherapy, in synergy with brown algae.

Firming Latex Body Mask (70g)

Mix 70g (150ml) Firming Latex Body Mask with 150ml water until a uniform paste is formed. Apply the paste in a thick layer with quick movements on the area to be treated.

Leave on for 20 minutes to dry and remove the mask in one piece (latex).

(Duration: 20 minutes)

Step 5: Stretch Firm

At this stage we aim to further enhance the elasticity of the skin and hydrate it with a cocktail of firming and moisturizing ingredients. The synergy of the ingredients Isoslim Complex, Hydroxyprolisilane and Algisium C enhance the collagen and elastin reserves of the skin, strengthens its supporting tissues, and moisturizes.

Stretch Firm Cream (4ml)

Apply 4ml Stretch Firm Cream and massage gently until it is absorbed.

(Duration: 2 minutes)

Step 6: Home Daily Regimen

• Bust Firming Gel

Strongly recommend tactical use of home regimen products after and in between treatments, until all the quantity contained is used.
