

Cellulite

Fucus Detox Therapy

Body detox treatment with seaweed that combats cellulite, topical fat and smooths the skin.

Professional cosmetic body treatment that improves the appearance of "orange peel" and combats localized fat. It also enhances the body detoxification while improves the skin's texture. This treatment is based on the strong lipolytic and detoxifying action of seaweed Vesiculosus, caffeine and artichoke in synergy with hyperemia of the skin. The specialized technology "non stop action" of the ingredient A2 Blockers prolongs the process of lipolysis by binding the A2 receptors of the adipocyte.

Main action

Anticellulite, detoxifying, lipolysis.

Secondary action

Toning, improving skin texture.

Body concerns

Cellulite, topical and total fat, fluid retention.

Contraindications

In circulatory problems, phlebitis, spider veins and varicose veins, the application of Thermoslim Gel and the use of a thermal blanket are contraindicated.

Key ingredients

Fucus Vesiculosus, A2 Blockers, Caffeine Biogenic, Artichoke Extract, Iodotrat, Methyl Nicotinate, Capsico-Tabasco Pepper, Ivy Extract, Ruscus Extract, Pro-Sveltyl, Lipocare, Remoduline, Ecoslim, Argisil C, Guarana Extract.

Suggested applications: 6-12 sessions based on the skin condition. This protocol can also be applied once for skin body detoxification.

Session duration: 50 minutes

Repeatability: 1-2 times a week

Maintenance: 2-3 times a month

Step 1: Detoxifying Peeling

At this stage we combine the action of removing dead skin cells with a strong keratolytic and detoxifying action.

Detoxifying Peeling Gel (12ml)

Apply 12ml Detoxifying Peeling Gel on the area to be treated and massage gently until absorbed. Do not rinse.

(Duration: 5 minutes)

Step 2: Thermoslim

This stage aims to increase the metabolic action of lipolysis by the intense hyperaemia caused in the skin (Capsico-Tabasco Pepper and Methyl Nicotinate) in synergy with the action of lipolytic active ingredients.

Thermoslim Gel (12ml)

Apply 12ml Thermoslim Gel on dry, clean skin and massage gently until it is adsorbed.

(Duration: 7 minutes)

Step 3: Fykia Detox

This step aims to combat cellulite and topical fat by burning triglycerides and improve skin uniformity.

Fykia Powder (60g)

Mix 60g Fykia Powder with ~140ml water in room temperature until a uniform paste is formed. Then apply the paste all over the body and wrap with cellophane. Combine the use of a thermal blanket for more intense perspiration.

Leave on for 30 minutes and rinse with water.

(Duration: 30 minutes)

Step 4: Caffeine Artichoke

At this stage, the lipolysis of stored fat is activated, and the uniformity and elasticity of the skin is enhanced.

Caffeine Artichoke Serum (8ml)

Apply 8ml Caffeine Artichoke Serum on clean and dry skin and massage gently. The combined application of the serum with an aesthetic machine is recommended as the serum is compatible with technologies such as ionization, ultrasound, electrophoresis.

(Duration: 3-5 minutes)

Step 5: Triple Action Shape

This stage improves the appearance of "orange peel" effect, eliminates the topical fat of the body and improves the epidermal texture, enhanced with the "non stop action" technology.

Triple Action Shape Gel (12ml)

Apply 12ml Triple Action Shape Gel and massage until it is absorbed. The application of the lymphatic drainage technique is recommended.

(Duration: 5 minutes)

Step 6: Home Daily Regimen

- Caffeine Artichoke Serum
- Triple Action Shape Gel

Strongly recommend tactical use of home regimen products after and in between treatments, until all the quantity contained is used.

Cellulite Fucus Detox Therapy

	Step	Product	Quantity/ application	Duration
1	Detoxifying Peeling	Detoxifying Peeling Gel	12ml	5 minutes
2	Thermoslim	Thermoslim Gel	12ml	7 minutes
3	Fykia Detox	Fykia Powder	60g	30 minutes
4	Caffeine Artichoke	Caffeine Artichoke Serum	8ml	3-5 minutes
5	Triple Action Shape	Triple Action Shape Gel	12ml	5 minutes

Home Daily Regimen:

Caffeine Artichoke Serum
