Oiliness Regulator Therapy

Treatment for the regulation of oily, acne-prone skin that balance seborrhea and leave a "matte" appearance.

Professional cosmetic facial treatment that regulates oil production, hydrates epidermis and tightens dilated pores of the skin while leaving a matte appearance. This treatment is based on the action of cosmetic products containing high concentrations of sebum regulating ingredients including Polytrap, Hyaluronic Acid and Phytopeeling in synergy with a specialized peeling and cellular stimulating system.

Main action

Oiliness and sebum production regulation, cellular stimulation.

Secondary action

Hydration, minimizing dilated pores.

Skin concerns

Oiliness, seborrhea.

Contraindications

Contraindicated in skin herpes zoster.

Skin types

Oily, acne-prone.

Key ingredients

Polytrap, Phytopeeling, Hyaluronic Acid, Kaolin, Bentonite, Multi B Complex, Red Clover, Retinoid, Azelaic Acid, Salicylic Acid.

Suggested applications: 8-12, based on the skin condition. This protocol can be applied either once for the prevention of seborrhea or systemically for the regulation of seborrhea.

Session duration: 35-40 minutes

Repeatability: 2 times a week

Maintenance: Once per month

Purification Oiliness Regulator Therapy

Step 1: Cleansing System

The main purpose of skin cleansing is to remove impurities and makeup from the skin while offering antiseptic action.

1a. Clarifying Cleanser Gel

Cleanse the face and neck thoroughly with Clarifying Cleansing Gel and rinse with wet cotton pad.

1b. Clarifying Active Lotion

Soak a cotton pad with Clarifying Active Lotion and apply it on the face and neck.

(Duration: 3 minutes)

Step 2: Triple Action Peeling System

At this step we combine exfoliation by removing the dead cells of the epidermis with cellular stimulation and renewal. We apply a specialized purification peeling system for oiliness regulation in **3 stages**:

2a. AHA Smoothing Cream (3ml)

Apply 3ml of AHA Smoothing Cream (Lactic Acid 2.7%, Glycolic Acid 5.3%, Mandelic Acid 1.0%/ pH ~ 5) on the face and neck, then massage for 3-5 minutes until absorbed. Allow it to dry for 3 minutes* and continue by rubbing with fingertips creating a gommage effect. This step is complete when all the gommage residue has been removed. *In the meantime, mix the Exfoliating Enzyme Mask with Exfoliating Enzyme Lotion. *(Duration: 9-11 minutes)*

2b. Exfoliating Enzyme Mask (1.5g) & Exfoliating Enzyme Lotion (3ml) (eye contour area)

The choice of enzymatic peeling on the delicate skin around the eyes, offers gentle exfoliation without causing irritation. It has brightening effects and acts as an eye protection. Apply the Exfoliating Enzyme Mask (Papain, Bromelain, Kaolin) and Exfoliating Enzyme Lotion (L-Arginine) on the area around the eyes. Use: Mix 1.5gr powder with 3ml lotion in a bowl to make a paste and then apply it around the eyes with a soft brush.

2c. Purification Peeling (0.7-1ml)

Apply 0.7-1 ml Purification Peeling (Retinoid 1%, Azelaic Acid 6%, Salicylic Acid 1.5% / pH ~ 3.00). Leave on for 7 minutes and do not remove. In case of irritation rinse it with water and move to the next step. *(Duration: 7 minutes)*

Remove the enzyme mask from the area around the eyes 7 minutes after its application.

(Total duration: 16-18 minutes)

Step 3: Oiliness Regulator System

This step aims to balance oiliness with parallel antibacterial and soothing action.

3a. Vitamin B Complex Serum (1ml)

On dry, oil-free skin apply 1ml of Vitamin B Complex Serum and massage lightly until it is absorbed or ionize on the using the negative pole. *(Duration: 2 minutes)*

3b. Phytopeeling Mask (5g)

Apply Phytopeeling Mask on the face and neck with a brush. (Use: Mix 5g of powder in a bowl with 6ml of water to make a paste.) Leave on for 10 minutes and remove gently with cool water. *(Duration: 10 minutes)*

(Total duration: 12 minutes)

Step 4: Hydra Clarifying System

This step aims to hydrate the skin while reducing the size of the dilated pores.

4a. Hydra Clarifying Serum (1ml)

On dry, oil-free skin apply 1ml Hydra Clarifying Serum and lightly massage until it is absorbed or ionize on the negative pole. *(Duration: 2 minutes)*

4b. Hydra Mattifying Gel (2ml)

Apply on the face and neck 2ml Hydra Mattifying Gel and gently massage until it is absorbed. *(Duration: 1 minute)*

(Total duration: 3 minutes)

Step 5: Sun Protection

Apply 2ml Sunfilm Face Gel SPF 30 depending on the season and time of the session. *(Duration: 1 minute)*

Step 6: Home Daily Regimen

Morning:

- Vitamin B Complex Serum
- Hydra Mattifying Gel

Night:

- Hydra Clarifying Serum
- Hydra Mattifying Gel

exclusively and for use at least of 2 months.

Purification Oiliness Regulator Therapy

	Step	Product	Quantity/ application	Duration
1	Cleansing System	Clarifying Cleanser Gel	1ml	3 minutes
		Clarifying Active Lotion	1ml
